

I am urging you to leave the Wisconsin No Call List protection in place. It is terribly annoying to receive call from unsolicited calls at any time of the day! Please remember that this affects many people in the State of Wisconsin and that people have the right to enroll in the plan, or not. Don't take away our right to decide because of the pressure of business'. Simply put if people want to have the solicitors call, they won't enroll in the plan. The provision of "choice" has already been established. Thank You, Mari K. Frederick
